Questions to Ask the Doctor

What stage and grade of follicular lymphoma has been diagnosed?

Are there other diagnostic or biomarker tests that would be beneficial?

What are common symptoms associated with follicular lymphoma? Are there complications that I should be aware of?

What are the goals of treatment? How do we decide which treatment is best?

Are there any dietary changes that would be beneficial?

Are there activities that my partner should avoid? What can they continue to do?

What is the best way to reach you or your staff if I have questions?
