

PATH TO PATIENT EMPOWERMENT

The path from symptoms to post-treatment can be long and winding. This guide is designed to support you at each step along the way.

PROBLEM

You've started experiencing symptoms and you want to have them checked out. Put your best foot forward and begin your search for the right healthcare provider.

1

DIAGNOSIS

Don't let your diagnosis throw you for a loop, you need to stay on top of your health. Take the time now to gather all the information you need about your illness and possible treatment options

CLINICAL TRIALS

You don't have to limit yourself to only one path. There are often many options for you to think about. If you're considering a clinical trial, this section is for you!

2

TREATMENT

As you wind your way through treatment the best way to remain sure-footed is to be prepared and to stay organized. This section tells you how.

3

SUPPORT

No need to walk alone. Whether you are looking for someone who's already been through it or just need someone to talk to, we have a list of resources that will help you connect with other patients like you.

4

CARE PARTNERS

Navigating your way as a care partner can be challenging, but now is not the time to neglect your own health! Find resources, information, and support in this section.

POST TREATMENT

Your treatments are behind you now, and now you can keep moving forward and learn how to self-manage your health, balance your emotions, and live a healthy lifestyle.
